Education

30th Adults Learning Mathematics Conference [ALM30] is being hosted in the University of Limerick, Ireland, from July 3rd – July 5th 2023.

Registration for this conference is now open and you can register at the following link:

<https://ulevents.eventsair.com/adults-learning-maths-conference/alm2023>

The rates for registration are as follows:

Early Bird Registration (Academic Staff): €250

Early Bird Registration (Students): €130

Early Bird One Day (Practitioner): €110*

The theme for this year's conference is *Numeracy Theory and Practice in a Changing World*. We are currently inviting research articles that align with this theme and the deadline for submissions has been extended until **April 11th 2023**. In addition to this, at ALM30 we are hoping to attract a number of practitioners to join us on Tuesday July 4th and are looking to host a number of practical workshops on this day. Thus, the conference will involve a number of different sessions involving research presentations and workshops which may be drawn from the following list of sub topics:

- Numeracy in a Digital Era
- Numeracy in a Sustainable, Healthy and Peaceful Global Environment
- Effective numeracy teaching
- Changing numeracy policies
- Issues in numeracy education for adult learners in the 21st Century and beyond

However, this is by no means an exhaustive list and all submissions that align with the overarching theme will be considered.

For those interested in delivering a presentation or workshop at ALM30, the call for abstracts is now open and submissions can be made at the following link:

https://unioflimerick.eu.qualtrics.com/jfe/form/SV_b3oXiqkasqjp1Fs.

* This rate is only available to practitioners in the field of adult numeracy to attend the practitioner day being held on July 4th 2023.
